RS Pro Slim Front Fused Probe Kit.

Product Details

RS Pro Slim Front Fused Probe Kit (GS38 fused lead set for ICM A9 Tester)

These fused test lead kits offers a high degree of protection to the user when measuring on high energy circuits up to 1000V. Both the red and black probes are fused to enhance the safety of the user. Leads are made with 1.2 metres double insulated silicone cable incorporating wear indicator. Supplied with 500mA/1000V/50kA fast acting high breaking capacity fuses. Replacement Part No 161-1530.

RS Accessories Include:-

125-3738 Screw In 1000V Crocodile Clips, 262-7770 Screw In Thin Spikes, 262-7786 Lantern Fronts

Specification

Voltage:	1000 Volts AC & DC
Current Rating:	500 mA
Safety Category Voltage:	1000 Volts
Safety Category Level:	CAT III
Minimum Operating Temperature:	-20°C
Maximum Operating Temperature:	+70°C
