

WATER-SAVING GUN DINGA®

Good for the environment

MARKING: 01 Water-saving gun / 02 Hot water-saving gun I / 03 Hot water-saving gun II

APPLICATIONS

Foodstuff industry, Milk processing industry, Other installations in the brewing, beverage and spirits industry

FLOW MEDIUM

Cold water, Hot water, Water

DESCRIPTION

Further properties: 1/2" female thread
Cold-resistant
Continuously adjustable jet strength
Gentle and environmentally friendly cleaning
Heat-resistant
Hose connections available in 1/2", 3/4", and 1"
Long-lasting
Resistant to alkalis and acids
Robust
Shockproof
Water flow 25 liters/minute at 5 bar / 72 psi
Water temperature: max. +50°C (+122°F) - water-saving spray nozzle), max. +95°C (+203°F) - hot water cleaning nozzle
Working pressure up to 25 bar / 363 psi
